July 27, 2004

TO: Mayor and City Council

FROM: Public Works Department

SUBJECT: RESOLUTION: TRAFFIC SIGNAL AND SAFETY LIGHTING INSTALLATION AT THE INTERSECTION OF MONTAUBAN AVENUE/LORRAINE AVENUE (BARBADOS CIRCLE), PROJECT NO. 02-27

RECOMMENDATION

It is recommended that a resolution be adopted approving plans and specifications and awarding a contract in the amount of $158,669 to Tim Paxin’s Pacific Excavation, Inc., for installation of the traffic signal and safety lighting at the intersection of Montauban Avenue/Lorraine Avenue (Barbados Circle), Project No. 02-27. It is further recommended that the resolution authorize the City Manager to record any and all transactions necessary to complete the funding of the project.

DISCUSSION

The intersection is a 4-leg intersection with stop signs posted on all approaches. The intersection meets State Guidelines (warrants) for signalization. There is also significant pedestrian activity when Rio Calaveras School is in session.

The project will upgrade the existing underground infrastructure installed when Montauban Avenue, Lorraine Avenue and Barbados Circle were originally built., and will also install new wheelchair ramps to conform to American with Disabilities Act (ADA) Standards. The plans, specifications, and estimate for this project were prepared by Traffic Engineering Services, Consulting Engineer.

On Thursday, June 24, 2004, bids were received on the above project with the following results:

Tim Paxin's Pacific Excavation, Elk Grove .................................................. $158,669
Collins Electrical Company, Stockton...........................................................$178,700
Richard A. Heaps Electrical Contractor, Sacramento.......................................$187,647
Steiny and Company, Vallejo..............................................................................$196,821
Engineers' Estimate.........................................................................................$160,000
SUBJECT: RESOLUTION: TRAFFIC SIGNAL AND SAFETY LIGHTING INSTALLATION AT THE INTERSECTION OF MONTAUBAN AVENUE/LORRAINE AVENUE (BARBADOS CIRCLE), PROJECT NO. 02-27

The bid of Tim Paxin's Pacific Excavation, Inc., low bidder, was regular in all respects and he has the proper license for this work. It is anticipated that the project will be completed by the end of October 2004.

Construction inspection and construction management services for the project will be provided by Traffic Signal and System Resources (TSSR) who are currently under contract to provide these services for miscellaneous traffic signal improvement projects.

FINANCIAL SUMMARY

As of July 1, 2004 there was an unencumbered balance of $146,500 in Account No. 900-9990, Montauban/Lorraine: Traffic Signals Fees: Citywide and $48,100 in Account No. 301-9990, Montauban/Lorraine: Capital Projects for a combined total of $194,600 which is sufficient funding to award the contract.
