TO: Mayor and City Council
FROM: Steve Pinkerton, Housing and Redevelopment Director
SUBJECT: RESOLUTIONS: ADOPT THE FINDINGS AND AUTHORIZE THE PURCHASE OF WORKSTATION MONITORS, A CITYNET UPGRADE TO AN "IP VIDEO" DIGITAL SYSTEM, ARCHIVE HARDWARE, CLOSED-CIRCUIT TELEVISION (CCTV) CAMERAS, AND PRIVATE SECURITY MONITORING FOR THE DOWNTOWN AREA

RECOMMENDATION

It is recommended Council adopt resolutions approving findings, appropriating funds, and authorizing the purchase of video cameras for the expansion of the City’s existing traffic monitoring system as follows:

1. The first resolution will approve findings, appropriate funds, and authorize the purchase of seven video monitors and the accompanying equipment for a workstation/control room in the amount of $74,549.53 from Syncronex.

2. The second resolution will approve findings, appropriate funds, and authorize the upgrade of the City’s existing CCTV network to accommodate an "IP-based Video" digital system in the amount of $198,308.07 from SBC Communications.

3. The third resolution will approve findings, appropriate funds, and authorize the purchase of archive hardware to capture signals from 32 cameras for a time period of ten days in the amount of $291,022.87 from SBC Communication.

4. The fourth resolution will approve findings, appropriate funds, and authorize the purchase of nine video cameras, wireless equipment, and accompanying modems in the amount of $98,654.42 from CMP Telecom.

5. The fifth resolution will approve contract change order No. 8, with Collins Electric (Project No. 96-7) for the installation of nine video cameras in the amount of $48,750.

The proposed system, totaling $711,284.89, would provide the third phase of traffic and pedestrian monitoring to promote public safety in the Downtown entertainment zone.
RESOLUTIONS: ADOPT THE FINDINGS AND AUTHORIZE THE PURCHASE OF CLOSED-CIRCUIT TELEVISION (CCTV) CAMERAS FROM CMP TELECOM IN DOWNTOWN STOCKTON

DISCUSSION

Background

Research conducted by the Downtown Action Team (DAT) indicated several municipalities are utilizing cameras to promote public safety in their cities. Some of those cities include: Modesto, CA; Hollywood, CA; Tampa, FL; and Baltimore, MA. The additional cameras have no audio capabilities, can rotate and tilt 360 degrees, and zoom-in and focus for close-ups. They would be positioned to capture activities in public places, such as streets, sidewalks, parks, and parking areas.

The use of cameras falls under Federal Statutory and Constitutional constraints:

1. Title I of the Electronic Communications Privacy Act

   a. Silent Video Surveillance

      Title I of the Electronic Communications Privacy Act limits law enforcement's ability to wiretap. Under Title I, police departments must obtain warrants prior to secretly intercepting some communications. Silent video surveillance on public streets does not have to comport with Title I because the Act only addresses devices which capture audio signals.

2. Potential Fourth Amendment Implications of Video Surveillance of Public Streets:

   a. Video Surveillance of Public Streets

      i. The Prevailing View: Video surveillance does not violate the Fourth Amendment.

         Individuals have no reasonable expectations of privacy on public streets and, thus, their activities are not protected under the Katz v. United States, 389 U.S. 347 (1967) test. Generally, one walking along a public sidewalk or standing in a public park cannot reasonably expect that his/her activity will be immune from the public eye or from observation by the police. This was also recognized by the Supreme Court in United States v. Knotts, 468 U.S. 276, 281-82 (1983).

         ii. Under current California law, the use of video surveillance would not give rise to a cause of action for the invasion of an individual's privacy under tort law. In the case of Aisenson v. American Broadcasting Co., Inc., 220 Cal. App. 3d 146 (2d Dist. 1990), a
RESOLUTIONS: ADOPT THE FINDINGS AND AUTHORIZE THE PURCHASE OF CLOSED-CIRCUIT TELEVISION (CCTV) CAMERAS FROM CMP TELECOM IN DOWNTOWN STOCKTON

California court held that the videotaping of an individual on a public street did not constitute an unreasonable intrusion into that person's solitude. An individual that is in public view by, for example, parking on a public street poses no invasion of privacy if their activity is videotaped.

Present Situation

The Downtown Action Team recommended expanding the use of cameras to promote public safety in Downtown Stockton near the Cinema Center in December 2003. In September 2004, the Bob Hope Theatre, Teen Center, and Eden Square Park area were added as phase II of the project. To complete the third phase of this project, the Downtown Action Team has recommended a digital upgrade to the existing system.

During the Asparagus Festival, additional software and hardware were demonstrated by vendors to convert our current CCTV equipment to an Internet Protocol-based system. In addition, staff researched the requirements to convert the existing analog video system to a digital video system. The "Video via Ethernet" or "IP Video" would allow the subject video cameras to be viewed and controlled at PC work stations anywhere on the City's network, thereby increasing the flexibility and portability of monitoring capabilities. The cost for the base conversion to "IP Video" would be $200,000. In order to archive images from 32 cameras for a ten-day timeframe, archiving hardware is also recommended at a cost of $300,000. The DAT is recommending we continue to promote public safety by continuing into phase III of this project. Phase III of this project will security monitoring of Civic Center Plaza, Weber Point, the North Shore Events Center (Ballpark and Arena complexes), downtown Marina, Waterfront Promenade and Morelli Park. Finally, additional security personnel to staff expanded camera monitoring capability through a workstation-based control room will complete the infrastructure upgrade.

Public Notification

The CCTV would be monitored eight hours a day/seven days a week, by the City of Stockton's contracted security company, presently, Atlas Security Company. The security officer monitoring the cameras has direct communication to City Police Officers patrolling the designated area. Public notification would be provided upon installation of the CCTV system in a designated area, unless the cameras were used for a covert operation. However, the information would be made available after it no longer hampered an investigation. The Stockton Police Department will post and maintain signage indicating the presence of CCTV systems in the City of Stockton. The signage will indicate the CCTV "may or may not be monitored," as recommended by the U.S. Department of Justice. On a semi-annual basis, the Stockton Police Department will provide updates on the CCTV systems at public meetings.
RESOLUTIONS: ADOPT THE FINDINGS AND AUTHORIZE THE PURCHASE OF CLOSED-CIRCUIT TELEVISION (CCTV) CAMERAS FROM CMP TELECOM IN DOWNTOWN STOCKTON

Video Recordings

Any recording will be maintained in accordance with the City’s records retention plan.

Policy and Procedure Development

The Stockton Police Department has developed a policy and procedure to be used as a guideline for utilizing the CCTV. Any City employee or private security personnel violating the policy and procedure may face disciplinary action.

Cameras

Nine cameras were installed during the first phase, as a precursor to Crime Prevention Through Environmental Design (CPTED) recommendations previously stated in the Environmental Impact Reports (EIRs) for the Downtown South Bank of the Stockton Deep Water Channel Marina project and the North Bank Ballpark/Arena/Convention Center/Housing project. The cameras, during the first phase, were also utilized for security of the Asparagus Festival site. Seven additional cameras were installed around the Bob Hope Theatre, Teen Center, and Eden Park. The nine new cameras would be installed at the following locations (see Attachment A):

- 222 North El Dorado Street
- Two in the Weber Point Events Center
- Three in the Arena/Ballpark site
- Fremont Street and Van Buren Street
- Morelli Park
- Tuleburg Levee Road

FINDINGS

Stockton Municipal Code Section 3-105 allows for an exception to the City of Stockton’s competitive bidding process where findings have been adopted to justify the exception. The proposed findings are as follows:

Synchronex:

1. The video monitors and appurtenant workstation/control room equipment as provided by Synchronex meet the current City requirements and are compatible with the existing traffic control room equipment.

2. Synchronex provided the previous equipment and monitors that are installed in the traffic control room.
RESOLUTIONS: ADOPT THE FINDINGS AND AUTHORIZE THE PURCHASE OF CLOSED-CIRCUIT TELEVISION (CCTV) CAMERAS FROM CMP TELECOM IN DOWNTOWN STOCKTON

3. City staff reviewed the price quotes for the monitors and appurtenant control room equipment. Based on the cost review, the prices are reasonable.

4. New monitors and equipment would need to be tested for compatibility with existing hardware and equipment. This would delay the project considerably.

CMP Telecom:

1. The selected cameras and equipment as provided by CMP Telecom meet the current City requirements and are fully compatible with the existing central Traffic Control System equipment. This equipment also matches the current equipment installed with central system.

2. The contract for Project No. 03-29 (CMP Telecom, Inc.) includes a “Guaranteed Prices” section, which guarantees prices for all items in the Bidding Schedule for a period of two years. At any time during that period, the City may purchase additional equipment from the Contractor at the same price quoted in the Bidding Schedule.

3. CMP Telecom provided the previous cameras that were installed in Downtown Stockton.

4. Other CCTV equipment may not be compatible with existing equipment.

5. CMP Telecom was selected based on the ability to provide the units within a very short delivery schedule.

6. Staff also reviewed other possible manufacturers' cameras and equipment and found that without changing or adding additional equipment to the central system, the units would not function properly.

7. New systems will need to be tested for compatibility with existing software, hardware, and equipment. This would delay the project considerably.

Collins Electric:

1. The current contractor is familiar with the equipment and the installation/adjustment procedures. The current contractor attended training sessions with City staff on the installation and operation of the CCTV equipment. Additional staff time would be required to train a new contractor on the existing system. Staff has been working with Collins Electrical Company, Inc., for the past seven-plus years on a camera installation project, and is familiar with their expertise and ability to complete the project.
RESOLUTIONS: ADOPT THE FINDINGS AND AUTHORIZE THE PURCHASE OF CLOSED-CIRCUIT TELEVISION (CCTV) CAMERAS FROM CMP TELECOM IN DOWNTOWN STOCKTON

2. It would cost the City time and would delay the project to advertise and award a new contract and to monitor the construction and other activities at the project site. It is necessary to complete the project before the opening of the Waterfront Ballpark and Arena Complex.

SBC Communication:

1. The equipment and services from SBC Communication will be done under a combination of the CAL-NET contract and FOCUS contract (Fast Open Contracts Utilization Services), which is California's only nationwide, local government-to-government purchasing program. The applicable rates and charges and the specific terms and conditions under which the equipment and services will be provided have been established through a competitive bidding process.

FINANCIAL SUMMARY

- Purchase of nine video cameras and associated equipment $100,000
- Installation of nine cameras $50,000
- Citynet upgrade to "IP Video" $200,000
- Digital Archive for image capture $300,000
- Control Room/Workstation $75,000

**Total Project Cost:** $725,000

The immediate implementation of the Downtown security plan will cost approximately $725,000. The City Manager is authorized to record any financial transactions necessary to fund this project, including the following transfers:

Transfer from:
960-0000-288 Police Facilities PFF Fund Balance $725,000

Transfer to:
960-9246-630 Downtown CCTV System $725,000

$75,000 for additional security monitoring will be paid for out of the Police Department’s Operating Budget.

The use of cameras and related signage in other cities has proven to be a deterrent to crime, thus providing a sense of security to the public. Therefore, the purchase, installation, and monitoring of CCTV is recommended.
RESOLUTIONS: ADOPT THE FINDINGS AND AUTHORIZE THE PURCHASE OF CLOSED-CIRCUIT TELEVISION (CCTV) CAMERAS FROM CMP TELECOM IN DOWNTOWN STOCKTON

Approved by City Manager

MARK LEWIS, CITY MANAGER
A RESOLUTION APPROVING FINDINGS AND AUTHORIZING THE PURCHASE OF SEVEN VIDEO MONITORS, FULL VIDEO ACCESS WORK STATION AND ALL OTHER APPURTEINENT EQUIPMENT FROM SYNCHRONEX IN THE AMOUNT OF $74,549.53 AND FURTHER AUTHORIZE THE CITY MANAGER TO RECORD ANY AND ALL TRANSACTIONS NECESSARY TO PURCHASE THE EQUIPMENT

WHEREAS, the purchase of the video equipment will make possible improved support for traffic and pedestrian monitoring in the downtown entertainment zone; and

WHEREAS, findings to support and justify exceptions to the competitive bidding process are needed for the purchase of seven video monitors, full video access workstation and all other appurtenant equipment from Synchronex are necessary; and

WHEREAS, Stockton Municipal Code ("SMC") Section 3-105 provides for an exception to the competitive bidding requirements in cases where the City Council has approved findings which support and justify exceptions to the competitive bidding process for the purchase of supplies or services through a sole source provider; now, therefore,

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. Pursuant to the requirements of SMC section 3-105, the City Council hereby approves the following findings which authorizes the purchase of seven video monitors, full video access workstation and all other appurtenant equipment from Synchronex, in the amount of $74,549.53:

   a. The video monitors and appurtenant workstation/control room equipment as provided by Synchronex meet the current City requirements and are compatible with the existing traffic control room equipment.

   b. Synchronex provided the previous equipment and monitors that are installed in the traffic control room equipment

   c. City staff reviewed the price quotes for the monitors and appurtenant control room equipment. Based on the cost review, the prices are reasonable

   d. New monitors and equipment would need to be tested for compatibility with existing hardware and equipment. This would delay the project considerably.
2. That based on these findings, pursuant to SMC section 3-105, the City Council hereby declares a sole source provider exception to the competitive bidding process is justified.

3. The City Manager, on behalf of the City, is hereby authorized to purchase from Synchronex, in the amount of Seventy-four Thousand Five Hundred Forty-nine and 53/00 Dollars ($74,549.53), seven video monitors, full video access work station and all other appurtenant equipment.

4. The City Manager is hereby authorized and directed to establish any accounts and make any and all expenditures, appropriations, and/or transfers of funds on behalf of the City as necessary to carry out the purpose and intent of this resolution.

City Clerk of the City of Stockton
RESOLUTION APPROVING FINDINGS, APPROPRIATING FUNDS AND AUTHORIZING THE PURCHASE OF NINE VIDEO CAMERAS, WIRELESS EQUIPMENT, AND ACCOMPANYING MODEMS FROM CMP TELECOM, INC., A CALIFORNIA CORPORATION IN THE AMOUNT OF $98,654.42

WHEREAS, in February 2004, the City of Stockton purchased from CMP Telecom, Inc. video equipment for traffic management and pedestrian monitoring in Downtown Stockton; and

WHEREAS, it has been recommended to expand the use of cameras to promote public safety in Downtown Stockton; and

WHEREAS, Stockton Municipal Code ("SMC") section 3-105 provides for an exception to the competitive bidding requirements in cases where the City Council has approved findings which support and justify exceptions to the competitive bidding process; now, therefore,

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. Pursuant to the requirements of SMC Section 3-105, the City Council hereby approves the following findings which support the purchase of Nine Video Cameras, Wireless Equipment, and Accompanying Modems from CMP TELECOM, INC., a California corporation, to provide traffic and pedestrian monitoring to promote public safety in the Downtown entertainment zone:

   a. The selected cameras and equipment as provided by CMP Telecom meet the current City requirements and are fully compatible with the existing central Traffic Control System equipment. This equipment also matches the current equipment installed with the central system.

   b. The contract for Project No. 03-29 (CMP Telecom, Inc.) includes a "Guaranteed Prices" section, which guarantees prices for all items in the Bidding Schedule for a period of two years. At any time during that period, the City may purchase additional equipment from the Contractor at the same price quoted in the Bidding Schedule.

   c. CMP Telecom provided the previous cameras that were installed in Downtown Stockton.

   d. Other CSV equipment may not be compatible with existing equipment.
e. CMP Telecom was selected based on the ability to provide the units within a very short delivery schedule.

f. Staff has reviewed other possible manufacturers' cameras and equipment and found that without changing or adding additional equipment to the central system, the units would not function properly.

g. New systems will need to be tested for compatibility with existing software, hardware, and equipment. This would delay the project considerably.

2. That based on these findings, pursuant to SMC section 3-105, the City Council hereby declares that an exception to the competitive bidding process is justified.

3. That the City Manager, on behalf of the City of Stockton is hereby authorized and directed to purchase, in the amount of $98,654.42, Nine Video Cameras, Wireless Equipment, and Accompanying Modems from CMP TELECOM, INC., a California corporation, to provide traffic and pedestrian monitoring to promote public safety in the Downtown entertainment zone

4. That the City Manager is hereby authorized and directed to make the following transfer/appropriation:

   **Appropriate From:**
